### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Marcus on 1/6/06.

- In the Specification, p.1, line 2: Replace "currently pending" with -- U.S. Patent Application Serial No. 6,726,485 --.

Please amend the Claims as follows:

- Claim 27, line 3: Replace "the decision" with -- a cognitive selection --.
- Claim 40, line 1: Replace "29" with -- 24 --.
- Claim 43, line 6: Replace "the" with -- a --.
- Claim 44, line 1: Replace "4" with -- 43 --.
- Claim 51, line 36: Replace "surface" with -- platform --.
- Claim 56, line 12: Delete "-".

These amendments were made to overcome minor informalities in the claims as well as lack of antecedent basis issues.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Patentability is seen in, although not limited to, the combination including: wherein at least a portion of the educational software is capable of being downloaded from a remote location over a data transmission medium (Claim 24); wherein the work platform comprises a contact-sensitive electronic display screen electronically and temporarily displaying a plurality of images on the work platform (Claim 43); a movement tracking capability wherein in response to an audio prompt a child causes contact with the work platform to laterally move across the face of the work platform while the contact is maintained with the work platform and the processor detects the path of the contact as it moves laterally across the face of the work platform (Claim 51 and similar language in independent Claim 54); and wherein the sensing system comprises a grid of wires, wires of the grid being sequentially energized so that contact with the work platform generates a variation in one or more of the wires of the grid from which the location of contact on the work platform can be determined (Claim 63). The prior art does not teach or fairly suggest these features in the combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chanda L. Harris whose telephone number is 571-272-4448. The examiner can normally be reached on M-F 6:30am-4:00pm.
